FUND OVERVIEW AND INVESTMENT OBJECTIVE

The RAW Sterling Cash Deposit Fund is suited to investors wishing to improve investment returns on GBP cash deposits. The Fund offers investors a quicker, more convenient and cost effective way to manage cash than opening multiple bank accounts.

The Fund is actively managed and invests solely in a range of bank deposits and certificates of deposit with high quality banking institutions. We do not attempt to enhance yield via derivatives or structured products. The investment objective of the Fund is to generate a better return than is typically available on one month bank deposits whilst reducing counterparty risk through diversification of banking institutions.

INVESTMENT STRATEGY

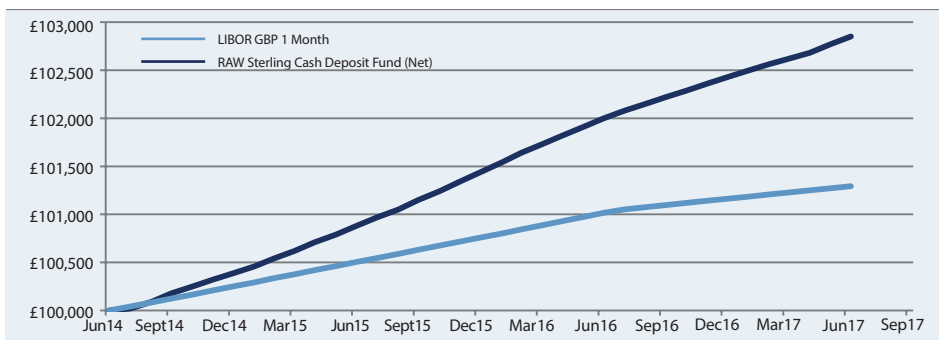

In conjunction with our cash advisor, we actively manage cash deposits over a spread of durations to seek the best risk-adjusted returns from a panel of banking institutions.
