FUND OVERVIEW AND INVESTMENT OBJECTIVE

The RAW Mortgage Fund, much like a traditional building society, originates Mortgage Backed Loans secured by a first legal charge against residential property with a maximum loan to valuation ratio of 55%.

The Fund benefits from the interest income generated by the loans. Capital security is provided via conservative loan to valuation ratios and rigorous credit assessment of each lending opportunity.

The Mortgage Backed Loans are originated, serviced and actively managed by RAW Capital Partners. All Mortgage Backed Loans are on the basis of floating interest rates.

The investment objective of the Fund is to generate consistent, attractive, risk adjusted returns.

INVESTMENT STRATEGY

The Fund will identify diversified, quality, low risk Mortgage Backed Lending opportunities by disintermediating traditional lenders. It will provide significantly better diversification than typical peer-to-peer lending.

The Fund lends primarily to buy-to-let residential property investors and takes security on quality residential property, focused in the main on London and the South East of England. Risk is managed carefully via conservative lending standards, rigorous credit assessment and ongoing monitoring. The Fund does not lend against high value properties in London or elsewhere in the UK.
